

2026-2027 Elective Course Descriptions

Title: Keyboarding (0.5 high school credit)/ Keyboard Applications (0.5 high school credit)

Grade Level: 6, 7

Fee: \$10

Keyboarding: This course teaches students basic keyboarding skills. Students will be able to type the entire keyboard using basic typewriting techniques and apply proper keyboarding techniques to input data and produce personal and business documents.

Keyboard Applications: Emphasis is placed on basic computer concepts both hardware and software, word processing, and spreadsheet applications. Computer skills will be taught that could lead to the student's ability to obtain certification in basic information technology.

Title: Computer Science Exploration

Grade Level: 7, 8

Fee: None

This course introduces students to coding, problem-solving, AI, and computer science foundations. Students will create apps, games, and interactive projects while learning how computer science connects to careers in all pathways.

Title: Financial Literacy (1 high school credit)

Grade Level: 7, 8

Fee: None

This course will cover a variety of topics including types of bank accounts offered, opening and managing a bank account, and assessing the quality of a depository institution's services; balancing a checkbook; basic principles of money management, such as spending, credit, credit scores, and managing debt, including retail and credit card debt; completing a loan application; receiving an inheritance and related implications; basic principles of personal insurance policies; computing federal income taxes; local tax assessments; computing interest rates by various mechanisms; simple contracts; contesting an incorrect billing statement; types of savings and investments; and state and federal laws concerning finance.

Title: Quest for Success (1 high school credit)

Grade Level: 8

Fee: None

Quest for Success helps students discover their strengths, explore career pathways, and build the academic and workplace skills needed for high school and beyond. Through career exploration, goal setting, and real-world learning experiences, students begin developing a plan for future success.

Title: Art (Intro to Art/Intermediate Art)

Grade Level: 6, 7, 8

Fee: \$10

Intro to Art: This course is designed to teach students to become critical thinkers and visual problem solvers. Students will explore the creative process, which includes brainstorming, problem solving, analyzing, and evaluating art. Design problems are solved through studio project-based learning in a variety of media and techniques, emphasizing the student's own personal ideas and artistic style. Intermediate Art: In addition to critically thinking and visual problem solving through a variety of media and techniques, students are expected to chronicle and display their portfolio projects on classroom web pages. This involves becoming competent in the use of available technology such as digital cameras, scanners, and a variety of Web tools. The value and importance of quality craftsmanship is a high priority. Students will acquire a working knowledge of design elements and principles.

Title: Band (Beginning/Advanced)

Grade Level: 6, 7, 8

Fee: \$20

Beginning Band: This course is for all students who wish to initially study band from the traditional instrument families of brass, woodwind, and percussion, including proper body posture and oral placement for quality sound production, the reading of music, and proper breath control. Some practice and/or performance time may be required beyond the traditional school day.

Advanced Band: This course is for all 7th and 8th grade students who wish to continue to study band from the traditional instrument families of brass, woodwind, and percussion, including proper body posture and oral placement for quality sound production, the reading of more advanced music, and proper breath control and tonguing/sticking technique. Some practice and/or performance time may be required beyond the traditional school day.

Title: Orchestra (Beginning/Advanced)

Grade Level: 6, 7, 8

Fee: Students must rent or own an instrument

Beginning Orchestra: This course is for all students who wish to initially study string orchestra instruments from the traditional string instrument family of instruments, including proper body posture and hand placement for quality sound production, the reading of music, and proper bowing techniques. Some practice and/or performance may be required beyond the traditional school day.

Advanced Orchestra: This course is for all 7th and 8th grade students who wish to continue to study string orchestra instruments from the traditional string instrument family of instruments, including proper body posture and hand placement for quality sound production, the reading of more advanced music, and proper bowing techniques, including stop bowing. Some practice and/or performance may be required beyond the traditional school day.

Glasgow Middle School

Title: Music Appreciation/General Music

Grade Level: 6, 7, 8

Fee: None

The Music Appreciation/General Music middle school course is designed for the student who wishes to study music not by playing/performing with an instrument or voice, nor the writing of music, but rather through the understanding of the use of music throughout time, throughout various cultures and societies of the world, and its various genres. The student wishes to study instruments but not necessarily how they are played, musical compositions and composers/artists but not necessarily how they are written, and the usage of styles in the context of the human condition throughout time.

Title: Multimedia Production

Grade Level: 6, 7, 8

Fee: None

This introductory course provides students with hands-on experience in digital media, broadcasting, and visual storytelling. Students learn to create videos, podcasts, graphics, and other digital content while developing skills in camera operation, editing, teamwork, and communication. The course also prepares students for high school pathways in broadcasting, digital arts, journalism, and media production. Students develop foundational skills in digital storytelling, photography, video production, podcasting, graphic design, media literacy, and introductory broadcasting. Throughout the course, students complete a variety of creative projects, including school announcements, short films, student-produced podcasts, event highlight videos, and digital posters and graphics.

Title: Hospitality & Tourism Management

Grade Level: 7, 8

Fee: \$20

This course provides an introduction to the Hospitality & Tourism Management industry, covering topics such as lodging, events, travel, and tourism, as well as a variety of related career pathways. Students will build professional skills by creating résumés and cover letters and participating in mock interviews while exploring careers in hotels, restaurants, and related fields. Throughout the year, students will gain hands-on experience by helping plan school events, including Gator Family Fall Fest, Lunar New Year, and Spring in the Swamp. Classes will also take field trips to local hotels, restaurants, museums, and other tourism-related businesses. Students will have the opportunity to earn Capital City Champion and ServSafe certifications, preparing them for part-time employment during high school. This course serves as an introductory overview to high school IBC courses in ProStart and Customer Service.

Glasgow Middle School

Title: Roman Technology

Grade Level: 6, 7, 8

Fee: \$10

This course will explore the methods, materials, and products of ancient Roman daily life. The Romans created one of the most advanced civilizations in history – come learn about how they achieved this. Start by learning about archaeology and how we know about the ancient world. Next, we'll spend the year answering these questions with hands-on history activities. How did the Romans build aqueducts to move water from mountains to cities? How did they use needles and yarn to create elaborate hairstyles that stayed in place for days? How did they design and build the most effective catapults in the world? How did they tell time using the sun? This course will explore these questions and many more through hands-on history, project-based learning, and STEM challenges - you'll be building and crafting almost every day. STEM + Classics = FUN and LEARNING!

Title: Pre-AP World History and Geography (1 high school credit)

Grade Level: 8

Fee: None

This course is built around three enduring ideas: history is an interrelated story of the world; history and geography are inherently dynamic; and historians and geographers are investigators. The Pre-AP World History and Geography course areas of focus prioritize the skills fundamental to the study of history and geography in high school, AP, and beyond. Areas of focus include evaluating evidence, explaining historical and geographic relationships, and incorporating evidence. Unit foundations for this course include the following topics: humans and the environment, governance, economic systems, culture, and society.

Title: Agriscience

Grade Level: 6, 7

Fee: None

Agriscience introduces students to the science, technology, and business of agriculture, including plant and animal systems, food production, and the environment. Students explore careers in agriculture while developing hands-on skills in growing crops, caring for animals, and understanding how food moves from farm to table.

Glasgow Middle School

Title: Louisiana Wetland Ecology (1 high school credit)

Grade Level: 8

Fee: None

Louisiana Wetland Ecology provides students with a study of Louisiana's unique coastal ecosystems, environmental challenges, and conservation efforts. Students earn high school credit while exploring careers in environmental science, wildlife management, coastal restoration, and natural resource management.

Title: French A/B

Grade Level: 6, 7, 8

Fee: None

This course is intended for students who are interested in studying the basics of the French language and its cultural components. Students will be assessed through oral performances, quizzes, exams, and projects.

Title: French I (1 high school credit)

Grade Level: 7, 8

Fee: None

Prerequisite: Successful completion of French A/B or teacher approval

A beginning course designed to give students the experience of learning a second language and gaining an appreciation of the cultures and places in which French is spoken. Listening comprehension, speaking, reading, and writing are included in the course curriculum while making connections to other academic disciplines, formally and informally. Students will perform at the novice-mid/novice-high level according to the Louisiana State Proficiency Targets.

Title: French II (1 high school credit)

Grade Level: 8

Fee: None

Prerequisite: Successful completion of French I

This course is a continuation of French I with emphasis on conversational skills, reading, listening, and writing. Upon completion of this course, students will have a basic command of elementary sentence patterns and grammatical structures. Students will perform at the novice-high level according to the Louisiana State Proficiency Targets.

Glasgow Middle School

Title: Latin A/B

Grade Level: 6, 7, 8

Fee: None

This course is intended for students who are interested in studying the basics of the Latin language and its cultural components. Students will be assessed through oral performances, quizzes, exams, and projects.

Title: Latin I (1 high school credit)

Grade Level: 7, 8

Fee: None

Prerequisite: Successful completion of Latin A/B

This course concentrates on the basics of the Latin language with an emphasis in grammar and translation. Roman history, legends, myths, religion, and customs are presented throughout the course to promote a greater understanding of the Romans.

Title: Latin II (1 high school credit)

Grade Level: 8

Fee: None

Prerequisite: Successful completion of Latin I

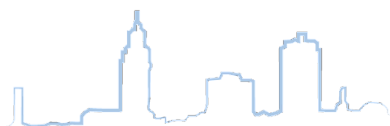

This course continues Latin I. By the end of this course, students will have covered enough grammar to begin working with extended passages from ancient Roman cultures. Classical civilization topics (history, myth, culture, mottoes, Latin derivatives) are also covered.

Title: Spanish A/B

Grade Level: 6, 7, 8

Fee: None

This course is intended for students who are interested in studying the basics of the Spanish language and its cultural components. Students will be assessed through oral performances, quizzes, exams, and projects.

Title: Spanish I (1 high school credit)

Grade Level: 7, 8

Fee: None

Prerequisite: Successful completion of Spanish A/B or teacher approval

This course is a beginning level course designed to give students the experience of learning a second language and gaining an appreciation of the cultures and places in which Spanish is spoken.

Listening, comprehension, speaking, reading, and writing are included in the course curriculum while making connections to other academic disciplines, formally and informally. Students will perform at the novice-mid/novice-high level according to the Louisiana State Proficiency Targets.

Title: Spanish II (1 high school credit)

Grade Level: 8

Fee: None

Prerequisite: Successful completion of Spanish I

This course continues to study Spanish vocabulary and grammar, including the past tenses. Students begin to attempt sustained conversation and the reading of narratives. Students must have mastered the use of regular and irregular present tense verb forms and agreements in nouns/articles/adjectives between their genders and numbers. Students will perform at the novice-high level according to the Louisiana State Proficiency Targets.
